

# How to report game scores

Game scores are not entered from within the team account. Instead this information is entered from the main GotSoccer website.

## Step One:

You will need to know the Event ID, Pin number, and Game number. This information can all be found on the Game Card for the match. It will be listed at the top right of the Game Card.

At this point you can call 904-758-0875 and enter the results over the phone, or you can scan the QR code in the upper right hand corner on your smartphone. If you wish to enter the game score via the web portal follow the remaining steps.

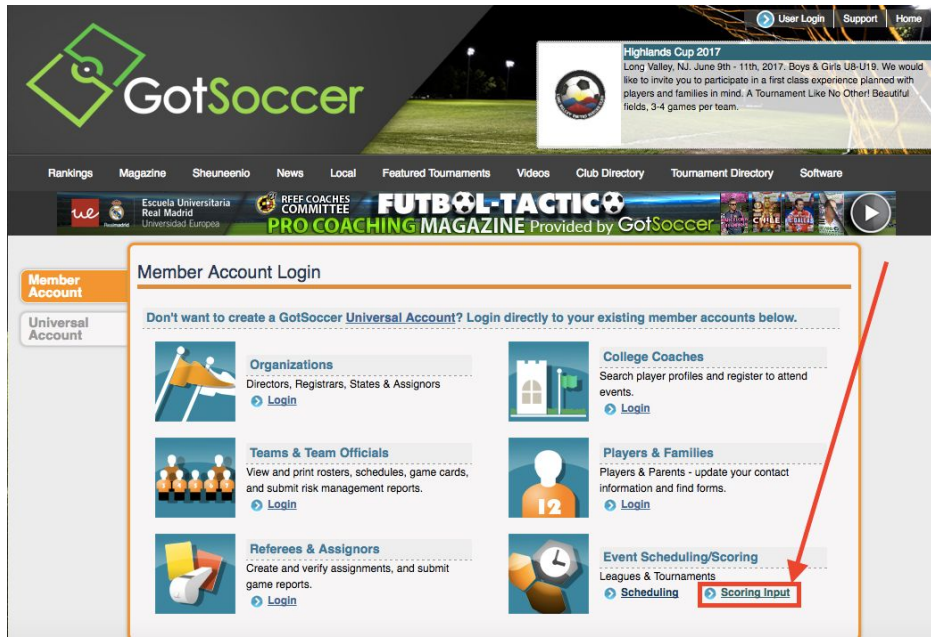

## Step Two:

Go to [GotSoccer.com](http://GotSoccer.com) and clicking on User Login in the top right corner.

## Step Three:

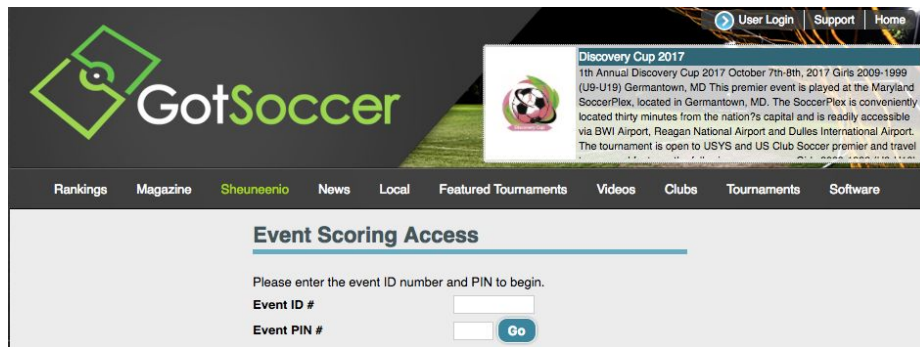

In the bottom right of the Member Account Login area you will see a section labeled "Event Scheduling/Scoring". Under this header you will see a link for Scoring Input: Click this link to be taken to the Scoring Input area.

#### Step Four:

You will then be prompted to enter your Event ID and Pin Number, then click Go. The next screen will ask for the Game Number, which can also be located on the game card. You will now be able to enter the game scores for your match. Do not enter anything for Y or R cards, as this is for referee reporting.
